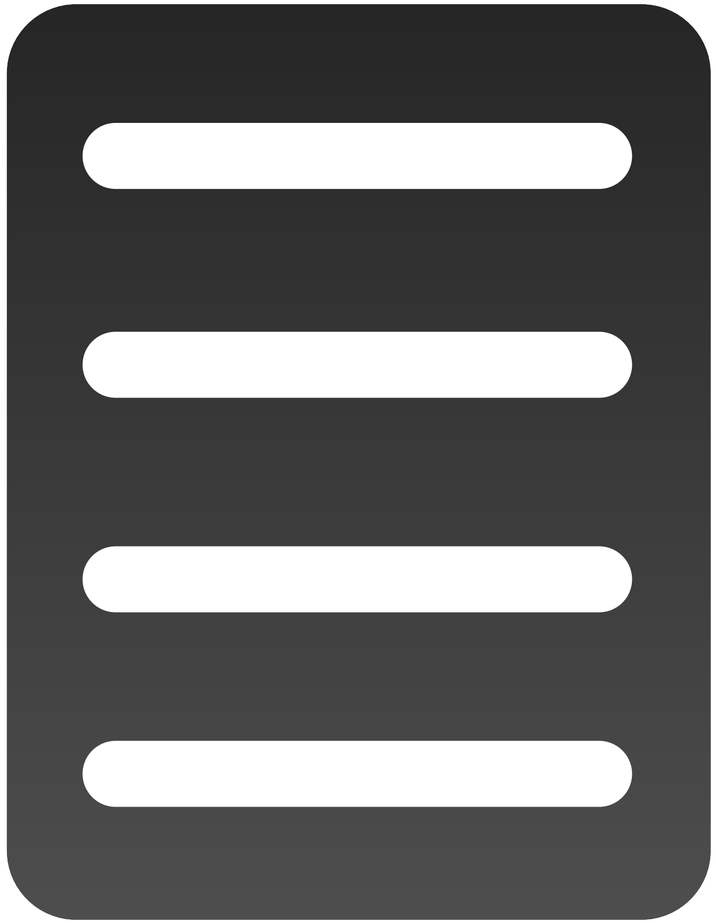
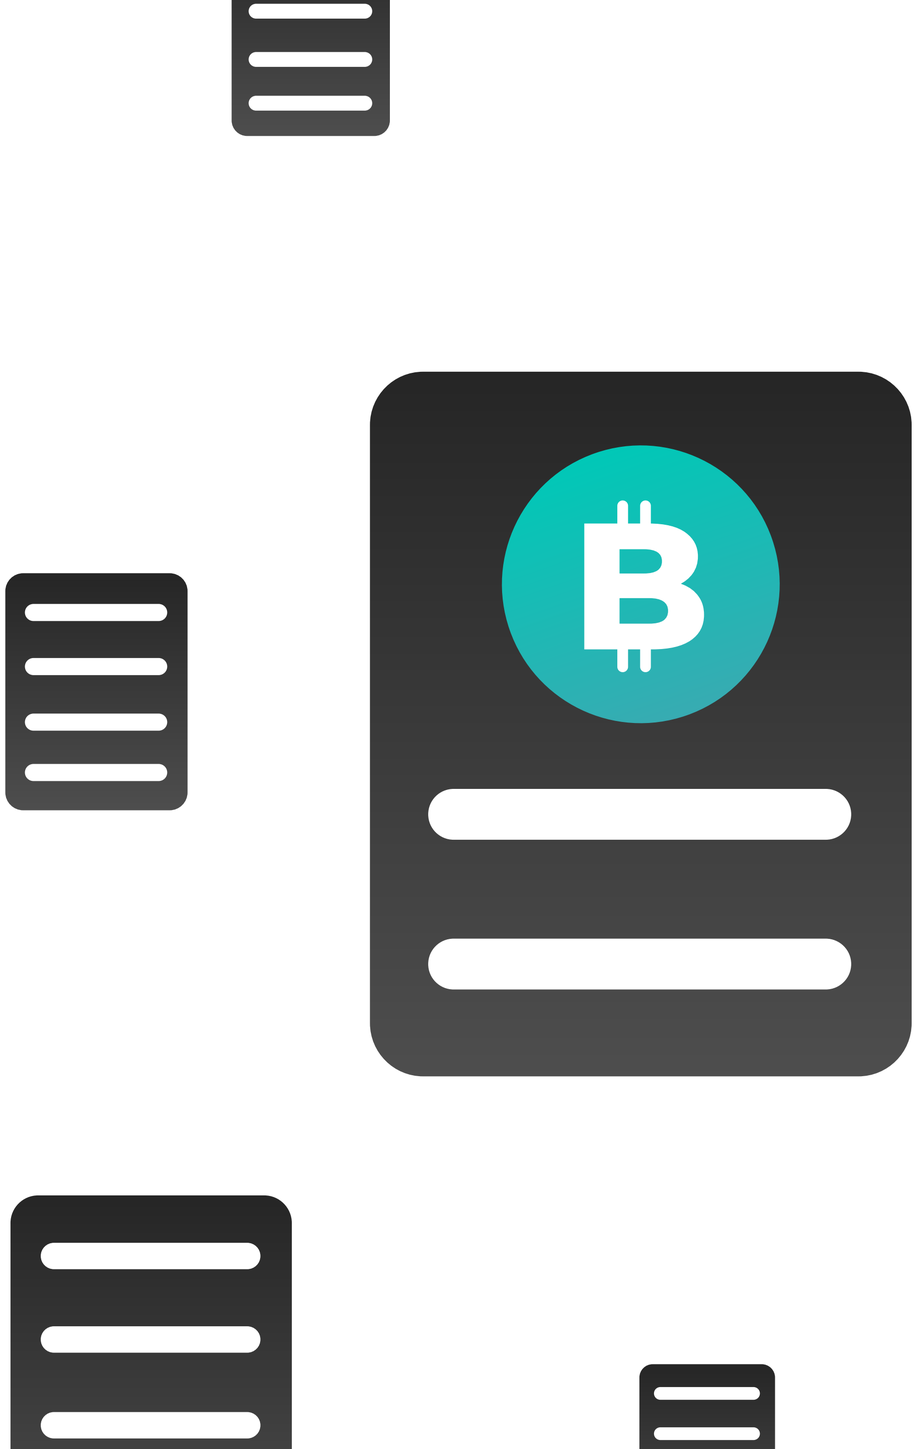
WHAT IS **BLOCKCHAIN?**

Cyrator
Decentralized Crypto Reviews



1 DOC

2 DOCS



BITCOIN HAS

1 MILLION DOCS

THE WORLD'S MOST SECURE DATABASE

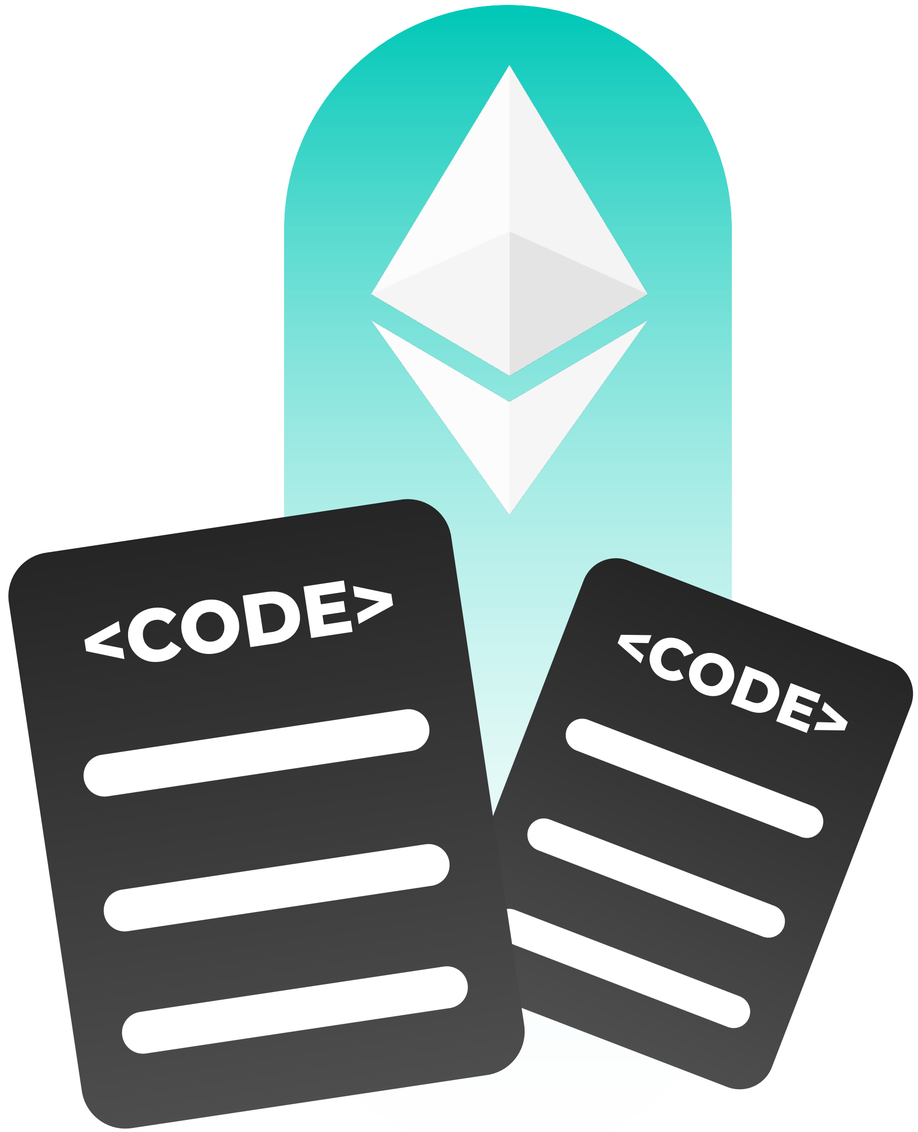
- No one controls it
- Information can't be edited
- Need **50%** to cheat

WHY IS IT CALLED A BLOCK “CHAIN”?

- A new doc (block) with data is produced every 10 minutes
- Docs are linked (chained) via special security code

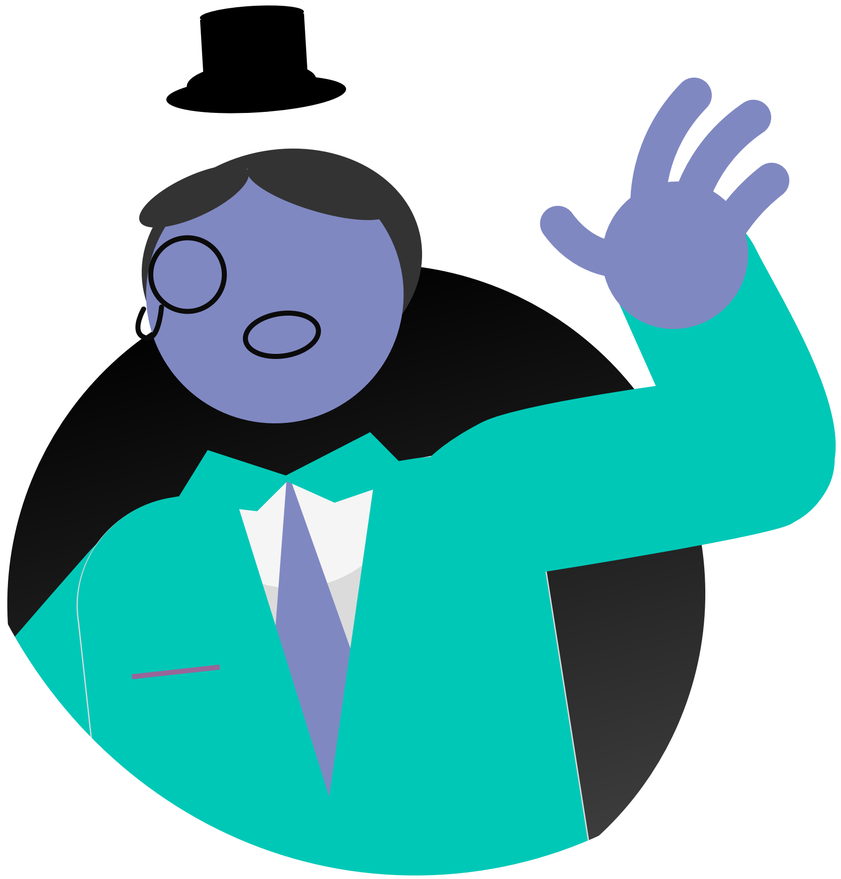
DECENTRALIZED
SOFTWARE

- Ethereum stores code in docs
- Code is called **Smart Contract**
- Opens up huge possibilities



WHY SHOULD YOU CARE?

- 1789 - democratized **government**
- 2009 - democratized **business**



WHAT'S A DAO?

- Stores **votes** "on-chain"
- Stores **money** in a smart contract
- Collective **decision** making

BE CAREFUL

- Expensive mistakes
- Scams

COLLECTIVE INTELLIGENCE

- Trustless
- Gamified
- Knowledge Sharing
